The screenshot displays a web-based PostgreSQL interface. The main window is titled "Query - postgres on postgres@localhost:5432". It features a menu bar (File, Edit, Query, Favorites, Macros, View, Help) and a toolbar. The interface is divided into several panes:

- SQL Editor:** Contains a query with three SELECT statements:

```
select *
from customers;

select *
from agents;

select *
from products;
```
- Scratchpad:** An empty text area for notes.
- Output pane:** Displays the results of the query in a table format. The table has columns: orderid, mon, cid, aid, pid, qty, and dollars. The data is as follows:

orderid	mon	cid	aid	pid	qty	dollars
1	1011 Jan	c001	a01	p01	1000	450.00
